Georgia Veterinary Practice Act

43-50-1. Short title
This chapter shall be known and may be cited as the "Georgia Veterinary and Veterinary Technology Practice Act." Except where otherwise indicated by context, in this Act the present tense includes the past and future tenses, the future tense includes the present tense, the singular includes the plural, and the plural includes the singular.

43-50-2. Legislative purpose
This chapter is enacted as an exercise of the powers of the state to promote the public health, safety, and welfare by safeguarding the people of this state against incompetent, dishonest, or unprincipled practitioners of veterinary medicine or veterinary technology.

It is the purpose of this Act to promote, preserve, and protect the public health, safety, and welfare by and through the effective control and regulation of persons who are licensed in this state.

(a) The purpose of this Act is to fully occupy the field of veterinary medicine and provide a uniform statewide regulatory scheme to be enforced by the Board of Veterinary Medicine as defined in the scope of practice. As such, no city or county shall prohibit a veterinarian, as defined, from engaging in any act or performing any procedure that falls within the professionally recognized scope of practice of licensure as a veterinarian, including but not limited to the scope of practice set forth in this Act.

(2) Nothing in this section shall prohibit any city or county from:

(i) levying a business license tax solely for revenue purpose, or

(ii) levying a license tax solely for the purpose of covering the cost of regulation.

(ii) exercising the power of any local government to adopt or enforce any zoning ordinance or make any other zoning decision. As used in this subsection, the terms 'local government', 'zoning decision', and 'zoning ordinance' have the same meanings provided by Code Section 36-66-3.

(b) The Statement of Purpose defines the general scope of the Veterinary Practice Act. A Board must have full knowledge of the persons practicing veterinary medicine and veterinary technology within its jurisdiction, and must effectively protect the public through regulation.

This section provides for the regulation of both practices and the licensure of veterinarians and veterinary technicians engaged in these practices, and also stipulates that the regulation of the practices of veterinary medicine and veterinary technology extends to all veterinarians and veterinary technicians practicing in the state, regardless of their actual state of residency.

(b) A licensed veterinarian may practice veterinary medicine as an employee of a corporation, partnership, or other business organization provided, however, the articles of incorporation, partnership, or business organization documents clearly state that the licensed veterinarian is not subject to the direction of anyone not licensed to practice veterinary medicine in Georgia in making veterinary medical decisions or judgments.

43-50-31. Application for license; qualifications; recordation of license and issuance of certificate of registration

(a) Any person desiring a license to practice veterinary medicine in this state shall make application to the board. The application shall include evidence, satisfactory to the board, that:

(b) The application shall be accompanied by a fee in the amount established by the board.

(c) The division director shall record the new licenses and issue a certificate of registration to the new licensees.

(d) If an applicant is found not qualified for licensure, the Board shall notify the applicant in writing in compliance with State law of such finding and the grounds therefore. An applicant found unqualified may request a hearing on the questions of his or her qualifications.

(a) The board shall hold at least one license examination during each year and may hold such additional license examinations as are necessary.

(b) After each examination, the division director shall notify each examinee of the result of his or her examination. If an applicant fails a license examination, the applicant may take a subsequent examination upon payment of the registration and examination fees. No person may take the examination more than three times without review and approval by the board. Approval may be provided under such circumstances as the board deems appropriate.

43-50-33. Persons holding license on July 1, 2003

Any person holding a valid license to practice veterinary medicine in this state on July 1, 2003, shall be recognized as a licensed veterinarian and shall be entitled to retain this status so long as he or she complies with this article, including biennial renewal of the license.

After the time period established by the division director has elapsed, such license or registration may be reinstated in accordance with the rules of the board.

(c) The board may by rule waive the continuing education requirements and the payment of the renewal fee of a licensed veterinarian or registered veterinary technician during the period when he or she is on active duty with any branch of the armed forces of the United States, not to exceed the longer of three years or the duration of a national emergency.

(d) (1) The board shall establish a program of continuing professional veterinary medical education requirements for the renewal of veterinary licenses. Notwithstanding any other provision of this article, no license to practice veterinary medicine or veterinary technology shall be renewed by the board or the division director until the licensed veterinarian licensee submits to the board satisfactory proof of his or her participation, during the biennium preceding his or her application for renewal, in approved programs of continuing education, as defined in this Code section. The amount of continuing veterinary medical education required of licensed veterinarians by the board under this paragraph shall not be less than 30 hours for veterinarians and 10 hours for veterinary technicians per biennium and shall be established by board rule.

(2) Continuing professional veterinary medical education shall consist of educational programs providing training pertinent to the practice of veterinary medicine and veterinary technology and approved by the board under this Code section. 43-50-41. Disciplinary action; subpoenas; judicial review; reinstatement; investigatory powers; immunity; failure to appear; voluntary surrender of license or registration

(a) The board is authorized to refuse to grant a license or registration to an applicant, to suspend or revoke the license or registration of a person licensed or registered by the board, or to discipline a person licensed or registered under this chapter or any antecedent law, upon a finding by a majority of the entire board that the licensee, registrant, or applicant has:

(1) Failed to demonstrate the qualifications or standards for a license or registration contained in this chapter or in the rules and regulations issued by the board, pursuant to specific statutory authority. It shall be incumbent upon the applicant to demonstrate to the satisfaction of the board that he or she meets all the requirements for the issuance of a license or registration, and, if the board is not satisfied as to the applicant's qualifications, it may deny a license or registration without a prior hearing; provided, however, that the applicant shall be allowed to appear before the board if he or she so desires;

(2) Knowingly made misleading, deceptive, untrue, or fraudulent representations in the practice of veterinary medicine or veterinary technology on any document connected therewith; or practiced fraud or deceit or intentionally made any false statement in obtaining a license or registration to practice veterinary medicine or veterinary technology; or made a false statement or deceptive biennial renewal with the board;

(4) Been arrested, charged, and sentenced for the commission of any felony, or any crime involving moral turpitude, where:

   (A) A plea of nolo contendere was entered to the charge;
   (B) First offender treatment without adjudication of guilt pursuant to the charge was granted; or
   (C) An adjudication or sentence was otherwise withheld or not entered on the charge.

The plea of nolo contendere or the order entered pursuant to the provisions of Article 3 of Chapter 8 of Title 42 or other first offender treatment shall be conclusive evidence of arrest and sentencing for such crime;

(5) Had his or her license to practice veterinary medicine or registration to practice veterinary technology revoked, suspended, or annulled by any lawful licensing veterinary medical authority other than the board; or had other disciplinary action taken against him or her by any lawful licensing or registering veterinary medical authority other than the board; or was denied a license or registration by any lawful licensing veterinary medical authority other than the board; or was refused the renewal of a license or registration by any lawful licensing veterinary medical authority other than the board, pursuant to disciplinary proceedings;

(6) Engaged in any unprofessional, immoral, unethical, deceptive, or deleterious conduct or practice harmful to the public, which conduct or practice materially affects the fitness of the licensee, registrant, or applicant to practice veterinary medicine or veterinary technology, or of a nature likely to jeopardize the interest of the public, which conduct or practice need not have resulted in actual injury or be directly related to the practice of veterinary medicine or veterinary technology but shows that the licensee, registrant, or applicant has committed any act or omission which is indicative of bad moral character or untrustworthiness. Unprofessional conduct shall also include any departure from, or the failure to conform to, the minimal standards of acceptable and prevailing veterinary medical practice or veterinary technology practice. Unprofessional conduct shall also include, but not be limited to, the following: failure to keep veterinary facility premises and equipment in a clean and sanitary condition; dishonesty or gross negligence in the inspection of foodstuffs or the issuance of health or inspection certificates; or cruelty to animals;

(7) Knowingly performed any act which in any way aids, assists, procures, advises, or encourages any unlicensed or unregistered person or any licensee or registrant whose license or registration has been suspended or revoked by the board to practice veterinary medicine or veterinary technology or to practice outside the scope of any disciplinary limitation placed upon the licensee or registrant by the board;

(8) Violated a statute, law, or any rule or regulation of this state, any other state, the United States, or any other lawful authority (without regard to whether the violation is criminally punishable), which statute, law, rule, or regulation relates to or in part regulates the practice of veterinary medicine or veterinary technology, when the licensee, registrant, or applicant knows or should know that such action violates such statute, law, rule, or regulation; or violated the lawful order of the board previously entered by the board in a disciplinary hearing, consent decree, or license reinstatement;

(9) Been adjudged mentally incompetent by a court of competent jurisdiction within or without this state. Any such adjudication shall automatically suspend the license or registration of any such person and shall prevent the reissuance or renewal of any license or registration so suspended for as long as the adjudication of incompetence is in effect;

(10) Displayed an inability to practice veterinary medicine or veterinary technology with reasonable skill and safety to patients or has become unable to practice veterinary medicine or veterinary technology with reasonable skill and safety to patients by reason of illness, use of alcohol, drugs, narcotics, chemicals, or any other type of material, or as a result of any mental or physical condition, or by reason of displaying habitual intoxication, addiction to, or recurrent personal misuse of alcohol, drugs, narcotics, chemicals, or any other type of similar substances. In enforcing this paragraph, the board may, upon reasonable grounds, require a licensee, registrant, or applicant to submit to a mental or physical examination by physicians designated by the board. The results of such examination shall be admissible in any hearing before the board, notwithstanding any claim of privilege under a contrary rule of law or statute. Every person who shall accept the privilege of practicing veterinary medicine or veterinary technology in this state or who shall file an application for a license or registration to practice veterinary medicine or veterinary technology in this state shall be deemed to have given that person's consent to submit to such mental or physical examination and to have waived all objections to the admissibility of the results in any hearing before the board upon the grounds that the same constitutes a privileged communication. If a licensee, registrant, or applicant fails to submit to such an examination when properly directed to do so by the board, unless such failure is due to circumstances beyond his or her control, the board may enter a final order upon proper notice, hearing, and proof of such refusal. Any licensee, registrant, or applicant who is prohibited from practicing veterinary medicine or veterinary technology under this
paragraph shall at reasonable intervals be afforded an opportunity to demonstrate to the board that such person can resume or begin the practice of veterinary medicine or veterinary technology with reasonable skill and safety to patients;

(11) Failed to register with the division director as required by law. It shall be the duty of every licensee or registrant to notify the board of any change in his or her address of record with the board; provided, however, that, for a period established by the division director after failure to register, a license or registration may be reinstated by payment of a registration fee to be determined by the board by rule and by filing of a special application therefor. After this period has elapsed, a license or registration may be revoked for failure to register and for failure to pay the fee as provided by law;

(12) Engaged in the excessive prescribing or administering of drugs or treatment or the use of diagnostic procedures which are detrimental to the patient as determined by the customary practice and standards of the local community of licensees; or knowingly prescribed controlled drug substances or any other medication without a legitimate veterinary medical purpose; or knowingly overprescribed controlled drug substances or other medication, in light of the condition of the patient at the time of prescription;

(13) Knowingly made any fraudulent, misleading, or deceptive statement in any form of advertising or made any statement in any advertisement concerning the quality of the veterinary services rendered by that licensed veterinarian or any licensed veterinarian associated with him or her. or the qualifications of said veterinarian(s). For purposes of this paragraph, "advertising" shall include any information communicated in a manner designed to attract public attention to the practice of the licensee or registrant;

(14) Used, prescribed, or sold any veterinary prescription drug or prescribed an extralabel use of any drug in the absence of a valid veterinarian-client-patient relationship; or

(15) Has had his or her U.S. Drug Enforcement Administration privileges restricted or revoked.

(b) The provisions of Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," with respect to emergency action by the board and summary suspension of a license or registration are adopted and incorporated by reference into this chapter.

(c) For purposes of this Code section, the board may obtain, and is authorized to subpoena, upon reasonable grounds, any and all records relating to the mental or physical condition of a licensee, registrant, or applicant, and such records shall be admissible in any hearing before the board.

(d) When the board finds that any person is unqualified to be granted a license or registration or finds that any person should be disciplined pursuant to subsection (a) of this Code section, the board may take any one or more of the following actions:

(1) Refuse to grant or renew a license or registration to an applicant;

(2) Administer a public or private reprimand, but a private reprimand shall not be disclosed to anyone other than the person reprimanded;
