

HOLIDAY CHECKLIST

MAKE IT, AND CHECK IT TWICE!

UP TO

3

DAYS

This is the amount of time it takes to fill your pet's prescription.

Is your pet boarding or traveling?

Is your pet up to date on the required vaccines? These appointments book out far in advance during the holidays!

Expecting guests?

Remind guests to resist giving pets scraps from the table. We see an uptick of pancreatitis cases, which can be life threatening.

Is your pet reactive to loud noises?

Whether it's a bustling living room or New Year's fireworks, calming treats, noise machines, and medication can help pets feel less distressed during the holidays.

Fill any meds well before the holiday season is underway!

Signs of anxiety/stress in cats:

Hiding, no or inappropriate urination, excessive vocalization, destructive behavior.

Signs of anxiety/stress in dogs:

Licking lips/paws, destructive behavior, shaking, panting, hiding.

73%

of lost pets with microchips are returned home.

COMMON HOLIDAY FOODS THAT ARE TOXIC

Turkey skin and other fatty meats.

Chocolate and xylitol.

Onions, raisins, grapes.

IMMEDIATELY contact us or your nearest veterinarian if you are concerned about toxicity.

Microchips reunite families.

Check or register your pet's microchip using this QR code.
